Released: August 3, 2011
Case No: NA

Vehicle Compliance Program **Implemented at Beaverton Police Department**

The Beaverton Police Department has adopted a new program known as the Vehicle Compliance Program (VCP). This program is designed to serve as an educational tool to Beaverton's citizens while promoting safe driving behaviors and making Beaverton a safer place to drive.

The Vehicle Compliance Program will provide driver's the opportunity to correct violations for which they're cited, with the added possibility of a citation dismissal. Furthermore, it relieves drivers of the financial burden of paying for citations, if the problem is corrected before their court date.

When an officer issues a citation for any one of the applicable VCP violations, a brochure explaining the program and the necessary steps will accompany the citation.

Violators will be asked to go to the Beaverton Police Department with their citation and brochure for any subsequent inspection(s), conducted by an officer. Then appear at the Beaverton Municipal Court, on the original scheduled date, for possible dismissal of the ticket.

Most of the applicable violations relate to vehicle equipment and registration. For a list of applicable violations, please visit us on Facebook - <http://www.Facebook.com/BeavertonPoliceDepartment>.
